

AMENDMENTS TO THE DRAWINGS

New Figure 26 is supplied.

Attachment: New Sheet(s)

REMARKS/ARGUMENTS

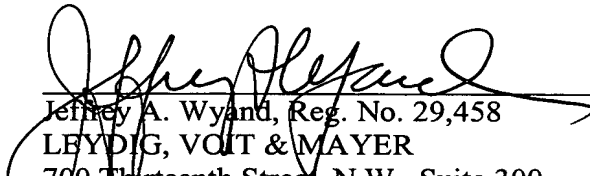

In further response to the Office Action of January 26, 2006 and in conjunction with a telephone interview on April 26, 2006 indicating that further changes in the patent application would be required to place the application in form for allowance, Applicants voluntarily submit the foregoing Amendment.

In this Amendment, drawing Figure 26 is added to support the limitations of claims 11 and 12. That drawing figure merely reproduces what is described at page 20 of the patent application as filed. Therefore, no new matter is added by the addition of the figure. Further, because of the addition of the figure, it is necessary to amend the specification to refer to the reference numbers appearing in the drawing figure.

Claims 1 and 2 are voluntarily amended to specify that the the dielectric films in the reflective films are not only sequentially arranged but also are adjacent in the stack of films.

Since the foregoing Amendment places the application in form for allowance, entry of the Amendment and prompt issuance of a Notice of Allowance are earnestly solicited.

Respectfully submitted,
